PRESS RELEASE

Pronature Alliance Ghana Marks World Environment Day 2026 with Renewed Commitment to Environmental Conservation

Accra, Ghana – June 5, 2026 – Pronature Alliance Ghana (PAG) joins the global community in commemorating World Environment Day 2026, reaffirming our commitment to environmental sustainability and the protection of natural resources for present and future generations.

This year's observance highlights the urgent need for accelerated climate action through collective responsibility and sustainable environmental practices. Climate change and environmental degradation continue to threaten food security, public health, biodiversity, and livelihoods, particularly among vulnerable communities, underscoring the need for decisive action to safeguard our planet and secure a sustainable future.

As an organization dedicated to the conservation, restoration, and sustainable management of natural resources and standing in solidarity with the global call for urgent climate action, we recognize that lasting environmental solutions require strong partnerships, inclusive participation, and sustained commitment from all sectors of society.

We therefore call on policymakers, development partners, traditional authorities, the private sector, and local communities to strengthen efforts toward environmental stewardship by promoting sustainable land-use practices, protecting forests and water bodies, restoring degraded ecosystems, reducing pollution, and investing in climate-smart solutions.

Together, let us turn awareness into action and commitment into impact.

About Pronature Alliance Ghana (PAG)

Pronature Alliance Ghana is a non-profit conservation organisation based in Accra, dedicated to advancing environmental protection and biodiversity conservation through scientific research, partnerships, and community-driven solutions. We work across multiple ecosystems to promote sustainable environmental management and resilient livelihoods in Ghana and beyond.
